Bill of Rights for Victims of Crime

The Shawnee County Sheriff's Office has prepared this information to help you, as a victim of crime, to understand some of the resources available in our community to assist you. The Kansas Legislature has also recognized the need to give victims of crime a voice and enacted the "Bill of Rights for Victims of Crime" KSA 74-7333 and 74-7335. The basis of this bill is to ensure the fair and compassionate treatment of victims of crime.

Your Rights as a Victim

- Victims should be treated with courtesy, compassion, and with respect for their dignity and privacy and should suffer the minimum of necessary inconvenience from their involvement with the criminal justice system.
- Victims should receive, through formal and informal procedures, prompt and fair redress for the harm which they have suffered.
- Information regarding the availability of criminal restitution, recovery of damages in a civil cause of action, the crime victims compensation fund and other remedies and the mechanism to obtain such remedies should be made available to victims
- Information should be made available to victims about their participation in criminal proceedings and the scheduling, progress, and ultimate disposition of the proceeding.
- The views and concerns of victims should be ascertained and the appropriate assistance provided throughout the criminal process.
- 6. When the personal interests of victims are affected, the views or concerns of the victim should, when appropriate and consistent with criminal law and procedure, be brought to the attention of the court.
- Measures may be taken when necessary to provide for the safety of victims and their families and to protect them from intimidation and retaliation.
- Enhanced training should be made available to sensitize criminal justice personnel to the needs and concerns of victims and guidelines should be developed for this purpose.
- Victims should be informed of the availability of health and social services and other relevant assistance that they might continue to receive the necessary medical, psychological, and social assistance through existing programs and services.
- 10. Victims should report the crime and cooperate with law enforcement authorities.
- 11. The victim or victim's family shall be notified of the right to be present at any public hearing where the accused or the convicted person has the right to appear and be heard.
- Notification shall e made to any victim or victim's family whose address is known to the District Attorney.
